

You are at your house. You are going to the movie theater to watch a movie.

Go east on Paradise.

Go north on the highway.

Get off at Sunset and head east.

You will see the movie theater on your right-hand side.

Go into the movie theater.

After watching the movie, you are going to a gas station to get gas. First, you are going to the gas station on Paradise.

Go west on Sunset.

Go south on the highway.

Get off at Paradise and head east.

You will see the gas station on your left-hand side right after getting off the highway.

You see the sign that says \$1 for one gallon.

Now you are going to the gas station on Flamingo to check its price.

Make a U-turn.

Make a right turn on 2nd street and make a right turn on Flamingo.

The gas station is on your right-hand side, and you will see the sign that says \$1.25 for one gallon.

You have decided to go back to the gas station on Paradise.

Make a U-turn.

Make a left turn on 2nd street and make a left turn on Paradise.

Go straight under the highway.

Enter the gas station to get gas.
